Personal Statement

After a couple years in property management, I'm excited to pivot my career into programming. This transition is a leap fueled by my genuine passion for coding. There's an undeniable thrill in deciphering complex problems and seeing the code come to life. I'm excited to embark on this journey, eager to immerse myself in the dynamic realm of programming and carve out a path where my passion thrives.

Education

Yeshivat Ohr Somayach, Jerusalem

2021-2023

- Topics covered were Talmudic Law & political frameworks, Ancient Hebrew Literature, legal & political process across territory, time & culture and Biblical sources, amongst many others.

Hasmonean High School, London

2015-2021

- A Levels - Further Mathematics(A*) Mathematics(A*) Computer Science(A)
- GCSEs – 11 9-6s, including Mathematics (9) and English (9)

Employment History & Work Experience

Freelance Developer, Self-employed

2023- Present

- Successfully run a freelance side hustle. Projects ranged from simple website design to developing complex customer fit software. Specialized in python, JavaScript and back end development. Some notable project I worked on were; configurable real-time ANPR software now used in over 15 car parks, web scraping software to assist in a law suit against the BBC and multiple programs to automate processes at Heywood and Partners.

Heywood and Partners Property Manager

September 2023- Present

- Taken an active role in client management, often being the sole point of contact for several commercial properties with a host of responsibilities such as service charge apportionment, payment run auditing, repairs and maintenance and more. This helped develop my people management skills and proved I could be trusted with responsibility

Project Manager, Console

February 2020 – September 2021

- Managed the development of a sophisticated Web-3 website commissioned by a client. My roles included directing our overseas developers, balancing the client's vision with the technical abilities of the developers and heading biweekly conferences. This role although challenging enhanced my leadership and analytical skills as well proving I could handle challenging workloads.
- Hired for marketing the website, this included creating advertisements on social media and collaborating with other projects in the same sector. Although not as challenging as my primary role, working with other teams helped me develop my teamwork and negotiation skills

Assistant Developer, Holition

July 2019

- As well as shadowing and assisting a Department Head which involved attending meetings and meeting customers, I also spent several weeks assisting in each department of the firm, interviewing and getting to understand everyone's role. This culminated in a presentation I lead in front of the company reviewing their corporate structure.

Key Skills
